20.2 Assuming issuance of bonus shares

The computation of earning per share is given below:

Total profit attributable to the ordinary shareholders	3,872,014	3,036,873
Weighted average number of shares outstanding	180,000	180,000
Bonus shares authorised but not issued	360,000	360,000
Total*	540,000	540,000
Basic earnings per share in BDT	7.17	5.62

* Prior period figure has been restated to maintain comparability between numbers.

The Board of Directors proposed to issue 1:2 bonus shares on 10 February 2021 which was duly approved by the shareholders at 48th Annual General Meeting on 28 March 2021; As at 31 March 2021 these bonus shares were not issued to the shareholders. The bonus shares have been issued to the shareholders on 18 April 2021. Therefore, the number of issued share capital remain unchanged.

20.3 Weighted average number of ordinary shares outstanding

The weighted average number of ordinary shares outstanding during the period is the number of ordinary shares outstanding at the beginning of the year, adjusted by the number of ordinary shares issued during the period multiplied by a time-weighting factor. The time-weighting factor is the number of days that the shares are outstanding as a proportion of the total number of days in the year. The weighted average number of shares is calculated by assuming that the shares have always been in issue. This means that they have been issued at the start of the year presented as the comparative figures.

20.4 Diluted earnings per share

As per IAS 33 para 5, dilution occurs when the company's issuance of new shares reduces the percentage of the existing shareholder's ownership by exercising optionable securities. Since the issuance of bonus shares for the company has not reduced the percentage of the existing shareholding ownership, hence no dilution has occurred.

25 Litigation

The Company has various claims and legal actions arising in the ordinary course of business. In particular, in November 2013, the Company received retrospective notices of imposition and realisation of VAT and Supplementary Duty on low price category brands (Pilot & Bristol) from the National Board of Revenue (NBR) alleging to have evaded tax by selling in the low price segments rather than the mid-tier segments. The claims were for approximately BDT 17,806 million against which the Company appealed and subsequently the Appellate Division of the Supreme Court has accepted the Company's appeals by judgement and order dated 25 July 2018. Against the judgment and order of the Appellate Division, the Government filed civil review petitions in March, 2020. The civil review petitions are pending for hearing.

Further, in January 2019, Abul Khair Tobacco Company Limited (AKTC) filed a writ petition by which it challenged the failure of Government in implementing the closing budget speech dated 27 June 2018 and reserving low segment for local brands and further challenged the legality of a 2018 Special Order of NBR. BATB became an added respondent to this writ petition. Upon hearing, the High Court (HC) did not find any merit in the argument of AKTC in relation to reintroducing discriminatory rates and therefore discharged the Rule on 21 September 2020. However, the Court declared the retrospective application of the 2018 Special Order of NBR illegal and held that any shortfall of revenue under a 2017 Special Order of NBR may be recovered from any party or manufacturer during the period of 01 June 2017 to 6 June 2018. As a result, LTU has demanded approx. BDT 2437 crores as unpaid VAT & SD from BATB for the concerned period. BATB appealed against the HC Judgment dated 21 September, 2020 before the Appellate Division and obtained an order of stay. Since High Court judgment is stayed, the LTU proceedings shall also be deemed to have been stayed. The order of stay has been extended from time to time.

26 Significant deviations

Earning per share (EPS) increased for higher profit after tax compared to same period last year driven by growth in volume and cost optimisation.
